SUMMARY

Computer Science Engineering graduate (**8.47 CGPA**) with strong foundations in **Java, JavaScript, DSA, DBMS, and backend development**. Experienced in building full-stack applications using **React, Node.js, Express.js, and SQL/NoSQL databases**, with a focus on scalable backend systems and real-world problem solving.

SKILLS

Programming Languages: Java, JavaScript, C, Python (Basic)

Core Computer Science: DSA, Object-Oriented Programming, DBMS, Operating Systems, SDLC

Backend & APIs: Node.js, Express.js, REST APIs, Authentication, RBAC, Event-Driven Architecture

Full Stack Development: React.js, Next.js, HTML, CSS, Tailwind CSS

Databases & Querying: PostgreSQL, MongoDB, SQL

Tools & Platforms: Git, GitHub, VS Code

Data & ML (Basic): NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, Machine Learning Algorithms

EXPERIENCE

AI/ML Intern, Euphoria GenX

Oct 2025 – Jan 2026

- Developed a **Support Vector Machine (SVM)** classification model in Python for cancer prediction using healthcare data, achieving **95.6% accuracy**.
- Applied supervised machine learning techniques for data analysis and model evaluation, demonstrating practical experience in healthcare-focused predictive modeling.

PROJECTS

Solar Flux Anomaly Tracker (SFAT)

July 2026 - Aug 2026

- Developed a **full-stack, multi-tenant B2B** space-weather platform for real-time telemetry monitoring, solar-flare detection, analysis, and **24-hour flare-risk estimation** using live **NOAA telemetry**; ML model achieved **90.7% accuracy**.
- Engineered **RBAC** and **event-driven architecture** with **tenant isolation**, Company Admin workflows, **X-class escalation**, and role-specific advisory routing; collaborated on **ML forecasting**.

SegmentPro

Feb 2026

- Developed a Python-based ML pipeline using **Scikit-learn** to segment customers by annual income and spending score into five behavioral personas through **K-Means Clustering**.
- Evaluated clustering quality with a **0.554 silhouette score** and generated **segment-specific marketing recommendations** with downloadable PDF reports.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

2022 - 2026

Modern Institute of Engineering and Technology (under MAKAUT)

CGPA: **8.47/ 10**

CERTIFICATIONS & ACHIEVEMENTS

- **AI/ML Industrial Training** – Euphoria GenX
- **GATE 2026 (Computer Science & IT):** Qualified; demonstrated strong foundation of core CS fundamentals and analytical problem-solving.
